

JACKSON CHARGED IN 4 TRUE BILLS

Spiceland Young Man Arraigned on
Grand Jury Indictments as Out-
growth of Mishap June 3

RAN INTO 3 WOMEN AT RALEIGH

Defendant Gives \$100 Bond on Each
Count, Charging Assault and Un-
lawful Operation of Car

Hubert Jackson, of near Spiceland, was arrested shortly after noon to-day and arraigned in the circuit court on four grand jury indictments returned as the result of the recent session, and which are the first of the 27 bills to be served.

Jackson provided bond for \$100 on each charge, three cases being for assault and battery, and one for unlawfully operating an automobile, all cases developing from an accident on the night of June 3, when he is charged with running his automobile into three women, who were leaving the Christian church at Raleigh.

The indictments for assault allege that he operated his automobile with such force that caused him to strike Hazel Foster, Martha Scott and Sarah Mohler, and which caused them physical injuries.

In the indictment charging him with unlawfully operating an automobile, it is charged that he operated the machine carelessly and at a speed in excess of a prudent manner, and greater than 25 miles an hour.

Additional arrests on the grand jury indictments were expected to be made today and Thursday.

The court case of Widvey against Zorne, a claim for \$1,200 judgment, came to an end shortly before noon today, when the attorneys finished their arguments. Judge Sparks took the evidence under advisement, and did not render a decision in the matter.

The case has occupied the court's time all week, having started Monday morning. The jury was originally called for the case, but at the last minute, it was decided to submit the case to the court, without the jury.

Saturday is supposed to end the May term of court, and the usual summer vacation extending until September is taken at this time but Judge Sparks will probably not adjourn this week on account of several cases hanging over.

The court has not reached a decision as to the adjourned term, but will likely outline a court calendar in a few days to take in some of the extra cases to be heard.

POPULAR PLAY TO BE GIVEN AT ASSEMBLY

"The Shepherd of The Hills" to be
Presented by Company of Seven
Experienced Artists

"REVENGE" BY SAME COMPANY

There is no more popular play upon the American platform than "The Shepherd of The Hills", the beautiful and homely story of the Ozark mountain life adapted from the book by that name by Harold Bell Wright, which will be given at the Rush county chautauqua at the city park at night on August 9.

The story is presented by a company of seven experienced artists. They have had the advantage of several seasons' experience on the chautauqua platform, as well as the training given in the famous Wales Studios.

In the afternoon a beautiful play entitled "Revenge" will be given. This will make Thursday, of the week a day worth the price of admission for the season, members of the program committee assert.

During the past two years this company has had banner crowds in every chautauqua in which they have appeared and their record of gate receipts places them in first place in popularity.

FORMER SENATOR DIES

Gosport, Ind., June 27.—Funeral services for A. H. Wampler, former state senator and Democratic politician were held at the Wampler home here today. He was cashier of the Gosport bank.

BIG CROWD AT WEBB SOCIAL

Throng Estimated At 2,000 Attend-
ed Affair At Webb School

A crowd estimated at 2,000 people, established a new record for attendance at an ice cream and cake social Tuesday night, which was held at the Webb school building, in Rushville township. The social was held with the purpose of paying off an indebtedness on school equipment, and all of the stands reported an enormous amount of business. Almost 100 gallons of ice cream was used, several cases of pop and scores of home made cakes.

A band from Rushville also was on hand and furnished music. Machines were lined for a half a mile in each direction of the building, and persons from every section of the county turned out for the event.

COUNCIL AWARDS PLANT CONTRACTS

Bids on Work to Remodel Boiler
Room to Care for Future Needs
Are Received

COST WILL BE NEAR \$25,000

Improvements to City Water and
Light Plant Will be Paid For
Without Any Bond Issue

Various contracts for the remodeling of the boiler room at the city water and light plant were awarded Tuesday night at a special session of the city council, many firms being represented among the bidders.

The work is now under way at the plant for enlarging the floor space in the boiler room, and also in placing a new roof over that portion of the building. The expansion of the work has been caused by the increase in the use of electricity by the patrons as 90 percent of the homes in Rushville are now electrified, according to Superintendent A. T. Mahlin.

The proposed reconstruction of the building will take care of all future needs of the plant, and will conform with the coal unloading machinery that is now being installed. The total cost of the improvements being made this summer will be in the vicinity of \$25,000.

The plant has been self sustaining for years, and has been a money making concern. The plant has on hands now enough money to complete the payment of the work, without issuing bonds, or borrowing money for that purpose.

The various bids submitted last

THIRD POLITICAL PARTY TO BE FORMED

Purpose Will Be To Elect Henry
Ford President, It Is Announ-
ced At Club Convention

DEARBORN CLUB HEAD SPEAKS

Detroit, Mich., June 27.—A third national political party with the aim of electing Henry Ford president in 1924 will be formed here in the near future at a convention of Michigan Ford-Ford-President Clubs. Rev. Wm. Dawe, president of the Dearborn club, said today.

The date has not been decided. Dr. Dawe said, but the convention will be far enough off to allow Ford-Ford-President clubs all over the country to send delegates here.

The Dearborn club at present is broadcasting pictures of the automobile manufacturer and systematically distributing Ford-Ford-President literature at the expense of the members of the club, according to Dawe.

50,000 Signers On Petition

Hiawatha, Kan., June 27.—Petitions bearing 50,000 signatures urging Henry Ford to become a candidate for president have been forwarded to Detroit by John Kale, founder of the original "Ford-Ford-President" club, here, he claimed today.

"I expect to have over 100,000 signers within another month," declared Kale.

WE HAVE A FEW MT. ETNAS OF OUR OWN

E. H. PAYNE SAID TO BE INSOLVENT

S. L. Trabue Appointed Temporary
Receiver in Bankruptcy Proceedings
Filed by Creditors

TRUSTEE TO BE NAMED LATER

Does Not in Any Way Affect Peoples
Bank or Loan and Trust Co.,
From Which He Has Retired

A complaint alleging that Earl H. Payne of this city former president of the Peoples National bank, is insolvent, has been filed in Federal court at Indianapolis, before Judge A. B. Anderson, by three alleged creditors.

The petitioners in the bankruptcy case are Ben Bever, Rufus P. Havens and William T. Hammel, all of this city, who allege that the defendant is insolvent, unable to meet his financial obligations, has transferred a portion of his belongings, and is preparing to transfer other property to defraud his creditors.

Judge Anderson appointed Samuel L. Trabue of Rushville as receiver, pending the appointment of a permanent trustee.

The defendant has been served with the notice of the bankruptcy proceedings by an officer of the federal court, and the permanent trustee will be appointed some time after July 15, the date for the return on the summons.

Mr. Payne retired from the presidency of the bank some time ago and has not been connected with the institution either as a stockholder or an officer since his retirement. It is stated that the proceedings do not affect the bank in any way, but deal directly with Mr. Payne and his personal affairs.

Ralph Payne, who succeeded Earl H. Payne as president of the bank, today gave out the following statement, referring to the fact that the bankruptcy proceedings have nothing to do with the bank or trust company or any individuals now connected with the two financial institutions:

"The proceedings against Mr. Earl H. Payne do not in any way affect the Peoples National bank or the Peoples Loan and Trust company or anyone now connected with them. Mr. Earl H. Payne is not now and has not been for some time in any way connected with either of the above institutions.

"Recent official examinations show both of these institutions to be in excellent financial condition."

SWEEPING PROBE IS LIKELY TO BE INSOLVENT

Investigation At Anderson Threat-
ened After Arraignment Of 22

Indianapolis, Ind., June 27.—Sweeping investigation of the liquor law violations in Anderson was threatened today by Homer Elliott, United States district attorney, after the arraignment of 22 owners and operators of soft drink establishments from Anderson, in federal court today.

The fact that there have been wholesale liquor law violators at Anderson and that several of the defendants have been convicted, a number of times, would indicate it is a conspiracy in that city to defeat the federal prohibition laws, Elliott said.

THINKS COUNTRY FAVORS POLICIES

President Harding is Convinced That
The Country Approves of His
Administration

RESULT OF ONE WEEK'S TOUR

Knows, However, That He Has
Stirred Up Animosity, But Has
Disarmed His Critics

By LAWRENCE MARTIN
(U. P. Staff Correspondent)
(Copyright by United Press)

Salt Lake City, Utah, June 27.—One week of close contact with the American people has convinced President Harding that the country, so far as he has seen it, approves of his administration and its policies.

This in spite of the fact well known to Harding, in that one week of his trans-continental speaking tour, he has stirred up animosities by every speech he has delivered.

The opposition he has aroused by his proposals of a self perpetual world court, for railroad consolidation, by his virtual silence on agriculture freight rate reduction and his challenged position on prohibition enforcement, means little to the president. That opposition he feels existed before he spoke. It may be a little more aroused and indignant now, but it is more powerful in his opinion.

On the other hand he is convinced that he has so expressed the aims of his administration and explained its achievements, that he has disarmed many of his critics, who he thinks will not find so ready an audience.

HEAT IS BROKEN BY LIGHT SHOWERS

Cooler Weather Prevails in Rush
County Today, Mercury Declin-
ing 15 To 20 Degrees

LOW LEVEL DURING NIGHT

Barometer Sinks This Morning, In-
dicating Rain, and Showers Are
Expected To Continue

Cooler weather prevailed in Rush county today, following a series of showers, and more rain is predicted for tonight and possibly Thursday, according to the weather indications.

Elwood Kirkwood, in charge of the government station at Maury, reported a temperature of 75 degrees today at noon, which is from 15 to 20 degrees cooler than for the same hour for the past eight days.

Tuesday night also set a new low level for the same period as the mercury fell to 53 degrees during the night.

Last night the barometer climbed, indicating fair weather, and the sky was clear, with bright moon light. This morning the barometer took a decline, indicating rain, and showers are expected to continue tonight, and possibly Thursday, with a continuation of the cooler weather.

Local Hurlers Issue Defy To Arlington Team

Experts of "Links" Arrange For
"Pitch" Battle With Undefeated
Athletes From Posey Township
in Rushville Thursday Evening

Rushville horseshoe hurlers have challenged the Arlington club to a "pitch" battle on the "links" in West Third street and the contest will be pulled off Thursday evening at 7:30 o'clock. The Arlington pitchers have a "wicked punch" to their slinging arm and have mopped up with Charlottesville on two occasions. They feel a bit confident and are not expecting Rushville to have a show in the barnyard game.

The Rushville players, however, are not to be taken too lightly because all of them, with one exception, pitch the shoes the new-fangled way and are said to be very hard to stop. The latest and most accepted way to pitch a shoe is to give it a twist so that it will turn in the air and the corks will be facing the peg when the shoe hits the ground.

The play will take place on the grounds beside Walter Wainwright's grocery store near the corner of Third and Hanna streets. No admission will be charged.

The Rushville team is composed of the following men: McIlwaine, Adams, Keith, Christopher, Wainwright, Floyd, Weber, Edwards and Robertson.

VANDALS DO DAMAGE AT PARK PLAYGROUND

Ocean Wave For Children Is Brok-
en By Older People After Clos-
ing Hours At City Park

ARRESTS EXPECTED SOON

The first destruction of the playground equipment at the city park, took place last night, when the ocean wave, used by children, was broken down by vandals after the police had left the grounds for the night. Chief of Police Blackburn stated today that he had obtained fairly good evidence as to the guilty parties, and an arrest was expected to be made.

It has been pointed out that the only way to stop such practices is to inflict a fine on the persons who do such work, and it is expected that an example will be made right at the start.

The city park is now used by hundreds of people every evening who take their children there to play and almost every night there are many picnic parties. The park commissioner, Mr. Hardwick, who has police powers, usually remains until nine o'clock, and last night the playground apparatus was stampeded by larger boys, who are said to have broken down the ocean wave after the officer had left.

IN THE AIR ABOUT 6 HOURS

Army Aviators Trying For Endur-
ance Test Forced To Land At 10:20

San Diego, Calif., June 27.—Capt. Lowell Smith and Lieut. John Richter, attempting to set an endurance flight for airplanes by flying four days continuously, landed at 10:20 a. m. today after having been in the air about six hours.

A burned out generator forced the landing, which followed by a few minutes successful refueling of the plane in mid-air.

The projected endurance trip was made possible by perfection of a plan to refuel an airplane while in flight. At preliminary trials 50 gallons of gasoline was passed from one plane into the fuel tank of another while both were travelling 90 miles an hour. This system will be used in the test which started today.

Smith and Richter will circle near San Diego for the entire trip.

Hubert Alexander has returned to his home northwest of the city after a visit with friends in Terre Haute, Ind.

BOYS CAMP TO BE HELD THIS YEAR

Popularity Of Project Last Year
Induces Rotary And Kiwanis
Clubs To Plan Another

BOYS MAY REGISTER NOW

Plans Are Incomplete Regarding
Site And Equipment—Cost To
Boys Is Not Settled Yet

Another boys camp will be held this summer, similar to the one conducted last summer under the auspices of the Rotary and Kiwanis clubs, it was announced today by the boys work committees of the two clubs, who will be in charge of the project again.

The committees have several sites in view, but have not definitely selected one yet. The camp was held last year on the P. A. Miller farm six miles southwest of Rushville.

Boys who wish to attend the camp are expected to register with Harry Wyatt at the George C. Wyatt and company furniture store in North Main street. Registration will begin at once so that the committees can get some idea as to the number to expect in the camp.

The sum which the boys will be charged per week has not been agreed upon because the committee has not determined upon the amount which will be required to operate the camp this year. Last year the boys were charged \$4.00 and the camp was conducted for ten days.

The proposed plan this year is to hold a two weeks camp with a different group of boys each week. If there are not enough boys to fill the second camp, those who desire to remain the second week may do so, according to the present plans, although this arrangement is not definitely made.

The camp last year was a new project for Rushville, but proved to be very successful, and the two clubs hope to make it even more popular with Rushville boys this year. It is expected that members of the clubs will encourage boys to camp, during the summer vacation, and that many boys who did not earn money to pay their way to the attend last year will be induced to go.

The committees hope to find a better site than the one used last year. Although some conditions surrounding the camp were very satisfactory, the facilities for swimming were limited and did not come up to the expectations of the boys attending. The committees are seeking a better location this year, with the idea of giving the boys a better place to swim, and they now have in prospect at least one site that is much better situated and offers better opportunities for bathing.

The camp last year was equipped with tents belonging to Company C.

BUSINESS BOOMING SAYS RESERVE BOARD

Conditions Throughout Country For
May And June Summarized in
Official Statement

AN ADVANCE IN PRODUCTION

By FRAZER EDWARDS
(U. P. Staff Correspondent)
Washington, June 27.—"Business is booming," according to an official statement of the federal reserve board today, summarizing conditions throughout the different federal reserve districts of the country for May and June.

"Production of iron and steel, cement and petroleum was larger in May than in any previous month, and mill consumption of cotton was close to maximum," continued the board.

There was a two percent advance in May of production in basic industries.

A further decline in prospective building was reported from principal cities. However, contract awards continued to increase generally though decline occurred in the New York and Chicago districts where operations were held up because of wage demands.

PLAN TO CHECK WET PLATFORMS

"Dry Leaders" of The Nation Launch Campaign to Stop Steps of Opponents in States

CAMPAIGN IS OUTLINED

Chief Among The Issues is to Elect Congressmen That Will Be 90 Percent for the "Drys"

By EARL J. JOHNSON
(C. P. Staff Correspondent)

Westerville, Ohio, June 27—The nation's "dry leaders" today made plans to throttle "the inevitable onslaught of the wets."

Steps to "dry pack" every state legislature against following New York in repealing its prohibition enforcement code were taken by high officials of the anti-Saloon League of America.

Forty state superintendents and ten other officers sat in war council and outlined the first nation-wide campaign to curb "back tracking" on prohibition.

The new fight will seek to:

1—Re-adopt a strict enforcement code in New York and combat repealer proposals in other states by packing the legislatures with "dependable dries."

2—Make certain at least a 90 per cent dry congress by stumping every congressional district in the country before the next election.

3—Prevent the inclusion of a wine and beer plank in the next Democratic national platform.

H. A. Baker, superintendent declared that the league is convinced that Governor Al Smith of New York and several other Democratic leaders are preparing to force across a wet candidate for president.

"The onslaught of the wets is now inevitable," Baker asserted. "We are confident that Mr. Harding, who in all probability will run again, will remain dry."

"Many more state legislatures would have attempted to repeal their enforcement codes had they been in session after the backward steps in New York. We know a real fight confronts us when the legislature meet again this winter."

"We are prepared to match their strength, dollar for dollar, and not let up until the opposition is effectually whipped."

Baker said in view of congressional reapportionment which would give heavier representation to the great centers of population, the dry campaign will probably concentrate in the big cities.

The renewed campaign, born in the very cradle of prohibition, will use the churches, Baker said, "to furnish the munitions of war."

The call will go out from Westerville, the "country's prohibition capital," to all churches at the close of the present meetings.

The Best Medicine For Women

When Mr. Myers of Winston-Salem, North Carolina, stepped into the drug store and asked his druggist for the best medicine he had in his store for woman's ill, is it any wonder he was handed a bottle of Lydia E. Pinkham's Vegetable Compound? Mrs. L. K. Myers in writing of it says: "I had been weak, run down and had a pain in my left side for a long time, so I could not do my work. Lydia E. Pinkham's Vegetable Compound helped me in a short time so I was able to do my housework including washing and ironing, and now I feel fine all the time." As Lydia E. Pinkham's Vegetable Compound holds the record for benefiting 98 women out of every 100 women who take it, it will pay every suffering woman to try it.

MORE JOBS THAN MEN AT INCREASED WAGES

Need of 600,000 Workers Reflects Steady Improvement of Business Along Many Lines

PROSPERITY IS EVERYWHERE

Indianapolis Ind. June 27—Steady improvement in industrial and agricultural conditions has brought employers to face a labor shortage, not only in Indiana but also throughout the country. The unemployment crisis, which forced 5,500,000 men to walk the streets in idleness two years ago, has completely vanished, and all the jobs are now back at work, with jobs waiting for anyone who wants it.

A survey of the labor market, in which Indiana officials participated, shows jobs for 600,000 workers, most of them being needed in the industrial districts although there is a large demand from the agricultural sections, due to the harvest. The shortage for the farms is estimated at 100,000 by the officials.

As an example of the present industrial prosperity, a Department of Labor report sent to the Indiana Industrial Board shows an increase of \$2,000,000 in weekly payrolls of \$7,000,000 men employed by forty-seven manufacturing plants in May over the month of April. These industries report a total employment of 2,249,000 men, and a payroll of \$60,203,000 a week. Improved wage conditions are reported generally throughout the foundry, machine shop, iron, steel, woolen and lumber industries.

AMUSEMENTS

Tom Mix At Mystic

Tom Mix scores official qualifications as champion trick automobile racer in his latest William Fox offering, "Stepping Fast," which will be seen today only at the Mystic theatre.

In this highly charged melodrama of astounding thrills and sweet romance, Tom enlists the U. S. A. and China for his excitement locale. He and the lovely heroine escape from a dungeon in darkest China, when Tom lassoes a mouse and ties a "help message" around its neck and puts it out the window. Back across the Pacific they dash in a speedy yacht and race the blackguards to the hidden treasure.

Here it is that the versatile Tom qualifies as a champion trick racer. The heavy on horse back, attempts a get-away, but Tom, flinging himself into his prize racer, corners him by an extraordinary skillful and scientific exhibition of driving. The day is saved, the heroine won, and Tom smiles broadly for the final happy close-up—the first he has found time during the run of the picture. The supporting cast is headed by Claire Adams, leading lady, who is a charming foil for the lively star. The others in the cast include: Donald McDonald, Hector Sarno, Edward Peil, George Seigmunn, Tom S. Guise and Ethel Wales.

"MADE UP" STORY HE SAYS

Joseph Geralka Admits Accusing His Father Falsely of Murder

Chicago, June 27—Joseph Geralka, 12, confessed, police said today, that he accidentally shot and killed his brother John, 3, and then "made up" a story that caused police to arrest the boy's father.

John was shot while the two boys were playing on a bed and the parents were away. Joseph summoned police and told them a man "with a red handkerchief over his face" shot the child. A description of a man's clothing tallies with that worn by the father and a red handkerchief was found in his pocket.

Joseph stuck to his story for several hours before admitting that the shooting occurred while he was playing with a gun. The father was released and Joseph, along with another brother, Frank 8, who substantiated the "masked man" story, were sent to a juvenile home.

MRS. JAMES HIGGINS DIES

Former Rushville Woman Expires In Piqua, Ohio Tuesday

Word has been received here of the death of Mrs. James Higgins, which occurred Tuesday morning at 2:30 o'clock at the home of her daughter, Mrs. Elizabeth Everett, in Piqua, Ohio, following a long illness of a complication of diseases. The deceased who was 72 years of age

was very well known in this city, having lived here practically all her life, until about fifteen years ago when she and her husband moved to Piqua where they made their home with their daughter, Mrs. Everett.

The survivors are the husband one son, Ora; three daughters, Mrs. Ida Albright, Mrs. Julia Miller and Mrs. Everett, all of Piqua, Ohio; and one grandson, Roy Higgins, of Dayton, Ohio. The funeral services will be held Thursday afternoon at two o'clock in Piqua, Ohio.

PERSONAL POINTS

—Mrs. Jabez Winship spent today in Indianapolis on business.

—John A. Stewart, of Indianapolis, was a business visitor in this city today.

—Walter A. Kramer of Rochester, N. Y. transacted business in this city today.

—Ed Pitman and Harry Beale went on a fishing trip near Metamora today.

—The Misses Mary Ann and Josephine Schell were visitors in Indianapolis Tuesday.

—Mrs. May May and Miss Leona Hinman were passengers to Indianapolis this morning.

—Mrs. Fanny Ayres who has been making an extended stay in Indianapolis, has returned to this city.

—Mrs. John Cooming has returned to her home in this city after a visit with relatives in Huntington, Ind.

—Miss Gertrude Binkley has returned to her home in Columbus, Ind., after a visit with friends in this city.

—Mrs. Mary McConnell has returned to her home here after a several weeks visit with relatives in Indianapolis.

—Mr. and Mrs. Earl Fortney of Kansas City Mo., are visiting the latter's parents, Mr. and Mrs. J. M. Higgins for a few weeks.

—Mrs. Mary Sparks and grand daughter, Frances Mattox, arrived home Tuesday evening from an extended visit in Queen City, Mo.

—Hugh E. Mauzy and Louis Mauzy attended the sessions of the Indiana Retail Dry Goods association meeting in Indianapolis Tuesday evening.

—R. G. Budd of Newcastle, formerly of this city, visited here Tuesday. Mr. Budd recently returned from a trip through the east after attending the national meeting of Shriners at Washington, D. C.

—Dr. J. C. Sexton and his sister, Mrs. C. H. Parsons, motored to Xenia, Ohio, Tuesday afternoon, to spend today as the guests of their sister, Mrs. Ruby Frazier. They expect to arrive home by Thursday noon.

—Samuel L. Trabue has returned from Logansport, Ind., where he attended the eleventh district meeting of the Knights of Pythias lodge Monday night. A class of more than fifty candidates was given the Page rank degree.

HAVE NOT ABANDONED PLANS TO FLY OVER THE NORTH POLE

Nome Alaska, June 27.—Captain Raold Amundsen and Lieutenant Oskar Omdahl have not yet abandoned their plans to fly over the North Pole from Wainwright Inlet, Alaska, to Spitzbergen.

This was the word brought here by E. P. Kaason, dog sled driver the first man to reach the outside world from the headquarters of the explorers' party at Wainwright Inlet. He came by dog sled to obtain supplies. Kaason said he had no information regarding previous reports from Christiania to the effect that the flight had been abandoned.

He brought news that on May 11 Amundsen and Omdahl attempted a trial flight but on landing broke the skids on their plane, which, until then, had performed satisfactorily.

Amundsen is shown standing in the picture before the plane in which he will attempt the flight. Lieut. Omdahl is shown in the inset.

MUST USE CARE IN PARKING CARS

Autoists Who Do Not Leave 18 Feet of Clear Roadway on State Roads Invite Trouble

HEAVY FINE MAY BE LEVIED

Director of State Highway Commission Says Commission is Determined to Keep Road's Open

Indianapolis, Ind., June 27.—Autoists insisting on parking machines in state highways and failing to leave 18 feet of clear roadway from the center of the road—or in other words whose parked cars interfere with two-way traffic, are inviting court arraignment, heavy fine and possible imprisonment, John D. Williams, state roads' director, announced.

Mr. Williams says that the highway commission is determined that state roads shall be open to two-way traffic, and does not propose to permit traffic to be blocked, checked or there be an open invitation to accidents through careless and unthoughtful motorists parking cars over half the right-of-way. Persons found needlessly parking cars under such conditions will be prosecuted in accordance with Sec. 2311-Burns' Revised Statutes, 1914, which fixes a maximum penalty of \$500 and imprisonment from ten days to three months for one found guilty of obstructing highway traffic.

Mrs. Williams called attention that records compiled weekly in his department show that many highway accidents are directly caused by machines being left in the right-of-way on heavily traveled roads. Most people do this thoughtlessly, he said, but such a condition does not remove the handicap and menace to traffic; neither does it release guilty ones from responsibility.

Picknickers, fishermen and others—often one wishing to make a repair on car or tire—park machines where fills are narrow and block traffic seriously. The generally excellent condition of state roads naturally invite high speed, and few people but will agree that it is a patent fact that state roads are crowded with every form of automotive vehicle for many hours each day and night.

Congestion naturally occurs because of the carelessly parked autos, and often drivers who delight in stepping heavily on the gas, meet at places of construction. The inevitable happens and often a life hangs in balance or pays toll. Always there is more or less damage to property, and unnecessary hazard to all passing a car so parked.

Mr. Williams pointed out that conditions are vastly different from a decade ago when an auto parked anywhere along a road was not seriously objected to because traffic, compared to the volume today, was negligible.

In order to aid in reducing highway accidents the commission is erecting "NO PARKING" signs at many places in the state. It is hoped that these signs will cause motorists to realize that highways are not personal property but the property of the public generally, and that they will display some regard for other men's rights. In the meantime maintenance crews are doing everything possible to widen narrow hills and remove as fast as possible road hazards. The public, however, should remember that such a tremendous volume of work can not be accomplished in a few days, and should cooperate to make our state roads safe and pleasant to travel, Mr. Williams contends.

ARRESTED SIXTH TIME

Hammond, Ind., June 27.—Walter Bober, alleged king of bootleggers in the Calumet district was under arrest today for the sixth time this year on a charge of liquor law violations. While the periodic arrests are rather vexatious Bober says they do not bother him much. He rides around in a limousine and says that business is picking up all the time.

ASSASSINATION TRIED

Belgrade, June 27.—An attempt to assassinate Premier Pasitch of Jugoslavina failed here today. The premier was leaving parliament when his assailant, a man named Rajitch, opened fire with a revolver. Six shots went wild. Rajitch was arrested.

SIX DROWN THIS MONTH

Indianapolis, Ind., June 27.—Six persons have lost their lives by drowning in Marion county this month. Maurice Dillaine, a four year old boy, was drowned in the Ringold play grounds swimming pool yesterday morning, bringing the total up to six.

J. W. LYONS HONORED BY SONS OF VETERANS

Former Rushville Man Elected Commander Of Maryland Division At Baltimore Meeting

NOW LIVES IN WASHINGTON

James W. Lyons of Washington, D. C., better known to his friends in Rushville, where he formerly lived, as plain "Will" Lyons, was recently elected commander of the Maryland division, Sons of Veterans, U. S. A., at the thirty-seventh annual encampment held in Baltimore. Mr. Lyons is a past commander of Lincoln camp of Washington and also has been division senior vice commander.

It has been years since Mr. Lyons resided in Rushville, but he will be remembered as a former employee of the Rushville postoffice. He still retains his membership in Phoenix lodge No. 62, F. & A. M., of this city. His friends may also be interested in knowing that his second wife is a professional lyric soprano singer, formerly of New York and Boston.

Mr. Lyons is a native of Oxford, Ohio. He became a member of the James E. Newton camp there, and later became an officer in Gen. P. A. Hackleman camp, of Rushville. Commander Lyons camp since 1910 having gone to Washington sixteen years ago.

He served as money-order superintendent for the postoffice department in the field with the American expeditionary forces in 1917-19. The commander is employed in the office of the third assistant postmaster general. He has been assisting the Grand Army of the Potomac, of this department, since taking up his residence here.

ANCESTRAL RELICS OF EMPERORS BURN

Fire Sweeps Through Peking, Destroying Imperial Historical Hall And Other Buildings

THOUGHT TO BE INCENDIARY

(U. P. Staff Correspondent)

Peking, June 27.—Fire swept through the forbidden city today.

The ancient imperial historical hall, containing ancestral relics of all the emperors, was destroyed together with dozens of small buildings surrounding it.

Wooden plaques upon which were carved the histories of dynasties stretching back into almost forgotten ages, were devoured by the flames and stories of many centuries before Christ wiped out forever.

According to seemingly authentic reports, the fire was of incendiary origin. Servants are said to have sold valuable curios to American and British tourists and to have set fire to the ancestral hall to escape detection.

Little credit is attached to reports that the fire resulted from a plot to drive the emperor from Peking. The imperial palace was damaged, according to police, and the emperor's life was not threatened.

The forbidden city lies within closely guarded walls, and few foreigners have penetrated its mysteries, although in recent years the Chinese authorities have looked upon the spot with less reverence than when a long line of emperors ruled with absolute authority.

HEAT IS BROKEN BY LIGHT SHOWERS

Continued from Page One including that of Bert Savor, well known comedian, two score injured and considerable property damage was the toll of a ten minute freak cyclone which swept greater New York late Tuesday, breaking the heat wave.

Lightning played fitfully over Brooklyn and Long Island as a miniature hurricane uprooted trees, smashed down a forty foot wall, crushed three persons in an automobile who had sought shelter under it.

Previous to the storm, 17 persons had been prostrated in a day of intense heat. Temperatures this morning were appreciably lower.

SEIZE 500 GALLON STILL

Terre Haute, Ind., June 27.—Federal prohibition agents today seized a 500 gallon still, one of the largest ever taken in Indiana in a farm house near here. Two foreigners were operating the still. One escaped and the other was arrested. The federal agents also seized 100 gallons of white mule.

THIRD VENIRE IS CALLED

Effort Being Made To Obtain Jury In Hunt Embezzlement Trial

(By United Press)

Indianapolis, Ind., June 27.—A third venire of talesmen was to be called today in an effort to complete the jury for the trial of Edwin A. Hunt, charged with conspiring to embezzle county funds.

After two special venires had been exhausted eleven men were agreed upon late yesterday by attorneys for the state and the defense.

Information furnished by Richard Sipe, former county clerk now serving in the state penitentiary, led to the arrest of Hunt. Sipe will be the state's chief witness against Hunt.

EXPLOSION IN THE CRATER

Crest Of Mt. Etna Rended, Arousing Grave Fears For Observatory

(By United Press)

Capania, Sicily, June 27.—A violent explosion occurred in the central crater of Mt. Etna today rending the volcano's crest in a southerly direction.

It is feared that the observatory from which Etna's latest manifestations were being observed, was toppled into a newly gaping crevice where new lava flows are pouring at the greatest speed yet attained by the volcano.

Believed about to slump back into a troubled slumbering state, Etna is now smoking and a great cloud of ashes is being spouted over the southern side of the volcano.

BOYS CAMP TO BE HELD THIS YEAR

Continued from Page One

Indiana National Guard, of this city, and the committees are hoping that they will be fortunate enough to obtain the use of the tents again this year.

The tentative date for the camp is the last two weeks in July, which indicates that there is not much time for preparation and that boys who expect to go must register at once in order to be sure of getting a place.

The boys who register will be required to sign the following pledge which is the same as the one used last year:

I do most solemnly and sincerely promise upon my word of honor as an American boy and as a student in the Rushville City Schools, that as a member of the Boys' Camp I will in all things, to the very best of my ability, heed and obey the instructions, requests and wishes of such persons as may have control of the Boys' Camp; that I will perform in a cheerful and willing manner such tasks as I am requested by my superiors to perform.

This promise is made with the understanding that the expenses of this camp to the amount of \$100 per week, are to be paid by me.

la\$g

ARMY DESERTER IS CAUGHT

Merle Eickman Also Wanted For Forgery And Violation Of Mann Act

(By United Press)

Kendallville, Ind., June 27.—After eluding authorities for four weeks, Merle Eickman wanted on charges of being an army deserter, was arrested at the home of his aunt Mrs. Selesta Eickman, today.

He will also face charges of forgery and violation of the Mann white slavery act at Windsor, Canada. According to the charges, he met Helen DeLong, 18, and induced her to leave home.

Federal authorities say the couple travelled as man and wife and came to the home of Eickman's aunt this week. The girl is being held as a witness and is awaiting word from her parents in Toronto, Canada.

THINKS COUNTRY FAVORS POLICIES

dience among the people who have heard some first hand reports on national and international views, from him.

Furthermore, the trip has already justified itself in the fresher insight it has given him into the moods of the people, the president feels. He will go back to Washington better attuned to the popular desires.

SELL WATER AS BOOZE

Noblesville, Ind., June 27.—Two men were under arrest here today while police investigated a scheme for selling water as bootleg whiskey

at \$90 a barrel. The men, according to police, agreed to sell a businessman a full keg of whiskey. The businessman man reported the transaction to police and the keg was found to contain water.

100 WAYS To Make Money

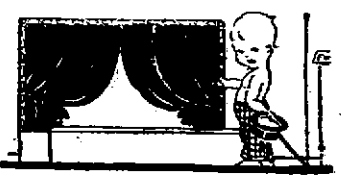

By BILLY WINNER

If I Were An Upholsterer—

I'd advertise that I would undertake to upholster that living room set and furnish draperies to match. I would make the old day-environment look like new. By clever upholstering I could make an out-of-date piece of furniture fit in with a set of modern pieces.

I would go to people's homes with samples of material and would make an estimate on the work to be done.

Of course, I would advertise with Daily Republican Want Ads. They're the best business getters I know of.

HAVE FAITH IN GOD:—And Jesus said unto him, Go thy way: thy faith hath made thee whole. And immediately he received his sight, and followed Jesus in the way. —Mark 10: 52.

For Future Generations

The projected Memorial park for Rushville will probably be of greater benefit to the next generation than to the present one, though those who will be responsible for its coming into existence expect to derive much pleasure from it. The city council and the people of Rushville, in deciding to add thirty acres of land to the present city park, have started a movement that will mean much to the future of Rushville and that will be of great service to those who are to carry on after those now in the middle of life's journey have passed off the stage of action.

With this idea in mind, it will be well for the city authorities to proceed cautiously and to do nothing without giving serious thought to what effect it will have on the coming generation in Rushville and vicinity.

The city is acquiring a beautiful tract of land containing some virgin trees and a wonderful opportunity is at hand to convert it into a park in which Rushville people can always take justifiable pride. Certainly it behooves the council to use good judgment in whatever decisions are reached because haste now might be regretted later.

The council should seek expert advice in hand-seeing the new park because a clumsy job of that would spell disaster and would damage the project immensely. It is the hope of all well wishers for the Memorial park that a landscape man of ability

will be given an opportunity to lay out the park with the idea of making it a source of the greatest service for both the present and the future as well.

Scuttling the Tax Fund

An item dated from Monmouth, Illinois, and printed in the Peoria Journal during May last, says: According to the annual appropriation ordinance passed by the Monmouth city council, the city will have approximately \$8,000 less money this year than it had last year for corporate purposes. The reason given for the shortage of funds this year, is that the assessors cut the value of real property 20 percent in making the assessment. Converting of personal property into non-taxable securities was also given as a reason for the shortage of tax money.

In the not distant future, people will learn that it is financial suicide to permit the income from state and municipal bonds to go tax free. Americans cannot afford to wait in amending our laws so as to do away with this loophole for tax dodging, as delay is costing taxpayers and consumers over a million dollars a day. Taxing the income from state and municipal bonds will tend to discourage local extravagance, equalize tax burdens and increase national and state revenue.

Destroys Government Stability

If radical political leaders can successfully pass legislation which would curb the power of our final courts to render decisions based on law and due deliberation, the first hole will be bored in the bottom of our Ship of State. Instead of a country of law, order and secure titles to real and personal property, we would have a country of changing political agitation where property titles would be about as stable as the shifting sands.

STATE TROOPS IN CONTROL

Law Enforcement Made an Issue at Okmulgee, Oklahoma

Okmulgee, Okla., June 27—State troops assumed control of law enforcement in Okmulgee county today.

Six national guard units, two of which are Okmulgee companies took charge of the county after Governor Jack Walton proclaimed a state of lawlessness and terror existed and declared martial law.

The governor declared Sheriff John Russell had failed to enforce law. He cited three instances of alleged abuse of official authority by the sheriff's forces, including detention of a minister who came to Okmulgee in the interests of a relief campaign; the claim by two men that while riding on a public highway with two girls they were stopped by Deputy sheriffs and insulted and subjected to abuse; and the shooting of a negro by a deputy. The negro was alleged to have fled at the approach of the officer.

Huntington—An abandoned quarry will be converted into a sunken garden if a movement now under way here is successful.

When you see a man looking at the thermometer and laughing he is some sort of dealer.

The stiff collar is doomed. You can't watch an airplane in one.

More girls are swimming this year. Every bathing place looks like a flock of magazine covers.

Crowds on street corners are not talking politics. They are trying to get across.

Kissing is dangerous. Too much of it will make a man cross-eyed.

President Harding, apparently thinking he has a steady job, has sold his newspaper.

Since most banks already had presidents, many of the June college graduates are still loafing.

Oklahoma woman stayed married 73 years, but it took a long time.

Canada is nearly 30 times as large as Great Britain and Ireland, and 40 times as quiet.

New German radio invention stops autos. Maybe some day it will stop phonographs.

This 2,600,000-volt lightning made at Pittsfield, Mass., would be nice to hand collectors.

Brokers who took \$5,000,000 must serve a year. About \$500,000 a month is fairly good pay.

Prince of Wales got in at two o'clock and smashed a skylight, over where prohibition is unknown.

The Hodge - Podge
By a Paraphraser with a Soul

Bobbed hair is still passing, but bobbed dresses are coming back, it is reported, much to the delight of the street corner loafer.

Money no longer makes the mare go—we need it for gasoline.

The fellow who swears when his hat blows off loses not only his hat but his sense of humor as well.

Nothing's so rare as a day in June, especially if the cooling breezes follow a long hot spell.

Men who are discouraged over failure seldom get any farther than the first one.

"Gary pledges end of 12-hour day", headline says. But we may still go ahead putting in our twelve a day if we see fit.

The top of the ladder is never far away to the fellow who keeps on climbing.

Believes Enemy Came
Back in Body of a Cow

Booneville, Ind., June 27—Ora Davis, Warrick county prosecutor, awoke one night from a deep dream of peace to find a strange cow eating the tender shoots of the corn patch over which he had worked many weary hours.

Angered at the look of solid indifference with which the cow acknowledged his shouts to drive it away, Mr. Davis got out of bed and clad in his pajamas attempted to chase the cow from his garden.

The cow was angered at the bright hue of Davis' pajamas and made a lunge at him. He escaped to the house and called the night policeman.

The two spent nearly an hour capturing the cow.

Davis who believes firmly in the reincarnation of souls declares that the spirit of some man he had prosecuted came back to earth and took the form of a cow to disturb his slumbers.

One Thing in Its Favor
(Baltimore Sun)

Still, prohibition has its good points. Fewer after-dinner speeches are made now.

FIFTEEN YEARS
AGO TODAY

From The Daily Republican
Monday June 29, 1908
The deputy fish commissioners found a seine at the home of M. B. Tompkins at Milroy, but as it was dilapidated and unfit for "duty" they ordered it burned and went on their way rejoicing.

While picking cherries at his home near Fairview, Lon Rush fell several feet and was severely injured. The ladder on which he was standing broke and he suffered a number of bruises about the body.

Dr. and Mrs. W. H. Smith of North Harrison street will celebrate their golden wedding anniversary this evening with a dinner which will be attended by the immediate relatives and friends.

The passing of the earth through the shadow of the moon Sunday morning constituting a solar eclipse was witnessed by many in Rushville. The clear sky favored those interested and, through smoked glasses the darkened surface of the sun was easily seen.

Mrs. Nellie Jackman of near Milroy is suffering from the bite of a dog and the nervous shock which attended it. The animal belonged to Mrs. Bessie J. Smith and without a moment's warning jumped at Mrs. Jackman yesterday, inflicting a painful wound on the arm. The dog was immediately killed.

Elgar Higgs and Earl Robertson, the two Rushville boys who made good in a sketch at the Grand theatre recently, have an offer to put their act on in Connersville the latter part of this week and will likely accept.

Mrs. Fred Hubbard and son Gerid returned to their home in Hubbards-town today after a visit with Dr. D. D. VanOsdel and family.

Mrs. Home Havens of Morristown is here as the guest of her brother-in-law, Paul Havens and wife in North Jackson street.

Miss Helen Frazee is visiting Mrs. Sam Bonner in Greensburg.
Greenfield Republican: The Misses Grace Getman, Bessie Kinsley, Lillian Carpenter, Lora Keeley, Myrtle Harlan, Nell and Olive Huff gave a breakfast at the Columbia Hotel Sunday morning. The company spent the day at Spring Lake where George W. Shay served one of his best chicken dinners. The invited guests were Mr. and Mrs. Walter Peters, O. S. Trix, Clyde Early, Jack Knecht, Frank Cowing, Sam Anderson, Charles Offutt of Rushville and William Fritz.

Jacob Feadner, proprietor of the Republican company, had the end of his index finger cut off this morning in a linotype machine. Without coat or hat he hurried up the street for a physician and had to visit several offices before he located one.

Miss Ida Mariam Spurrier left this morning for Cleveland, Ohio, where she will attend the music section of the National Educational Association which convened there today and which will be one of the largest gatherings of teachers ever witnessed.

Miss Marie Clark, Hazel Readle, Fay Lowe, Edith Murray, Rex Readle, Ed Pitman and family and Russell Casady and family took dinner with James Ruddell and family west of this city Sunday.

PRICE OF MILK GOES UP

Chicago, June 27—Retail price of milk here will be increased one cent per quart to 14 cents, effective July 1, distributors announced today.

MISS ADDAMS OPERATED ON

Tokyo, June 27—Jane Addams of Mulhouse, Chicago, underwent a surgical operation here today. The operation was pronounced successful and Miss Addams' recovery is expected.

POSSIBILITY OF FIGHT FLUNKING

In The Event That Dempsey-Gibbons
go Falls Through, They Will Meet
Labor Day

ONE CRISIS AFTER ANOTHER

Last One Comes in Form of Threat
by Company Supplying Lumber
For Arena to Foreclose

By HENRY L. FARRELL

(U. P. Staff Correspondent)

Shelby, Mont., June 27.—With the scheduled Dempsey-Gibbons world's heavyweight championship fight only a week away, fans are talking about what will happen if the whole thing falls through for lack of funds.

In that event, Dempsey and Gibbons would probably meet in New York on Labor Day. Both Tex Rickard and Tom O'Rourke would be willing to put on the match.

Crisis after crisis has been met since promotion of this bout started. The last one came yesterday when the Monarch Lumber Company, which supplied lumber for the arena, threatened to foreclose on the property unless the promoters handed over \$58,000 due, out of the first money available from ticket sales. After a long argument in which court action was threatened, an agreement was reached that the first of the ticket money will be split between the lumber company, the men who advanced the \$100,000 to meet the second installment of Dempsey's purse, and the contractor, who has \$15,000 due him for building the stadium.

The next crisis probably will arise over payment of the third installment of \$100,000 due Dempsey. The dead line is next Monday but the promoters have been trying to raise the cash ahead of time so the fans could be assured that the fight will be staged and the ticket sale helped thereby.

So far as can be learned without official confirmation the situation is about as follows:

Dempsey was paid the first installment of his purse with cash from \$100,000 worth of seats actually subscribed for in advance. The second \$100,000 was borrowed money. If the Great Northern turns over \$100,000 for tickets it will have to be applied to pay the men who loaned that second installment of the purse, the lumber company with its \$58,000 claim and the contractor with his bill for \$15,000.

Some of the promoters want to blame the newspapers for their troubles. They claim "bad" stories destroyed public confidence and hindered sales. Newspapersmen here, however, say they were not assigned as press agents, and that they were misled from the start by inaccurate statements of seat sales.

General sympathy is expressed over the difficulties encountered by the promoters, but more is voiced for Dempsey and Gibbons. Both are in shape to fight. Each has spent long tedious months training, and no work is harder. The champion started slow, but in the last week he has begun to round into the form that he had when he last defended his title.

Gibbons has been in shape for two weeks.

CONVICT BOSS ON TRIAL

Lake City, Fla., June 27.—Presentation of evidence by which the state hopes to obtain conviction of T. W. Higgin botham on a charge of beating Martin Talbert to death, began in circuit court here today. A jury was obtained late yesterday after ten hours of questioning veniremen. Two businessmen and ten farmers make up the jury.

Will Not Be a Man o' War

By PAUL R. MALLON

(U. P. Staff Correspondent)

New York, June 27.—Zev is an ordinary brown colt, with excellently developed breathing powers and a desire to run as far as he can, as fast as he can.

The star of the three-year-olds this year measures 15.3 hands, an ordinary size. A layman couldn't tell the difference between him and a dozen others of the same thoroughbred build.

Followers of the track, who have watched him closely, say he will never excel Man o' War, because he hasn't the extraordinary physical bone and brawn. His game is to run the field to death in the first mile and then walk home, leaving those winded by his fast pace strewn along the track behind him.

His stamina is his outstanding trait. Earl Sande, his jockey, has a hard time holding him in restraint. Zev always wants to leap out to his full speed. He acts like a pent-up bolt of lightning and they have to put blinkers on him to hold him.

Zev hasn't any of the stable pets

which Morvich played with. He is temperamental only in a sense of engerness and spirit. He has none of the idiosyncrasies which have branded former stars of the turf. They pack his stall half full of straw every night for a comfortable bed, and do not watch him closely.

Zev may not break many world records, nor set a mark of the century but he has earned his title as idol of the racing fans and there is no one who does not admire his exceptional courage.

The Sporting Life of London gives the British sentiment regarding American golf. An English student of the game writing under the pseudonym of "Fairway," says in a recent issue:

"We have been compelled to admit since 1921 that the American golfer is now our superior in skill and in the proper application of the club to the ball.

"But what hitherto we have not confessed is that they are our superiors in temperament. And yet temperament, the most important factor in golf, lost us amateur honors at St. Andrews."

It shouldn't be long now.

The Score Board

Philadelphia bombarded four pitchers for twenty hits and overwhelmed Washington, 16 to 7.

Despite Babe Ruth's sensational playing in left field, New York lost the final game of the series to Boston, 3 to 1.

After knocking Leverette from the box in the second with two home runs, a triple and a double. Detroit pushed over one tally in the ninth and beat Chicago 7 to 6.

Ken Williams hit his tenth homer of the season in the ninth inning of the last game of the series which Cleveland won from St. Louis, 9 to 1.

Trailing from the start, New York staged a five run rally in the eighth and defeated Philadelphia 6 to 3.

Hargrave, Cincinnati cut her, cracked out a home run in the fourteenth inning, giving Cincinnati the final game of the series with Chicago, 4 to 3.

Pittsburgh made it three straight from St. Louis, winning yesterday 7 to 5.

Yesterday's Home Run Hitters

Williams, Browns, 1—10.
Heilmann, Detroit, 1—8.
Tierney, Phillies 1—8.
Hornshy, St. Louis 1—6.
Grinn, Pirates 1—5.
Graham, Cubs 1—4.
Hargrave, Reds 1—3.
Parkinson, Phillies 1—3.
Hentline, Phillies 1—2.
Mannish, Tigers 1—2.

DESPERADO IS CAUGHT

Detroit, Mich., June 27.—John L. Whitfield, desperado wanted in Cleveland for the alleged murder of policeman Dennis Griffin, is held here today pending advice from Cleveland police officials. Whitfield was captured last night by a squad of detectives armed with riot guns. The capture ended a six weeks search through the middle west. first

BIG RACE JULY 4 ON DIRT SPEEDWAY

Twelve Racers Will Compete For
Purses On Half Mile Course
Near Indianapolis

ELIMINATION NECESSARY

Indianapolis, Ind., June 27.—What is said to be the biggest race in the history of dirt track racing will be held on the Hoosier Motor Speedway, the new half mile track, July 4.

Twelve of the fastest dirt track drivers will start in the race for the first prize money, \$1,000. The man finishing second will receive \$500, third \$200, fourth \$100.

There will be perhaps twenty entrants, according to J. V. Lines manager of the Hoosier Motor Speedway. Elimination tests will cut that down to twelve.

Among the drivers entered are D. E. Jacques, of Thornton, Essex Special; Fred Wilson, Crawfordsville, Moore special; Fred Koehler, Indianapolis, Frecks-Pronty; S. R. Rosebaum, Indianapolis, Mason Special; Joe Huff, Indianapolis, Huff Special; Dennis Shopp, Paris, Ill., Overland Special; Claude Fix, Lincoln, Powell Special, and Ray Butcher, Indianapolis, Imperial Special.

Russell Bond Scratch Pads, 4x5x1/2 inches, 2 for 5c, at The Daily Republican Office.

Miss Elsie Bohannon will entertain the members of the Tarry-A-While club Friday evening at 7:30 o'clock at her home in North Morgan street.

The King's Heralds of the St. Paul's Methodist Episcopal church will be entertained Thursday afternoon at 2:30 o'clock at the home of Betty Jean and Martha Baxter, 628 West Seventh street.

Mr. and Mrs. Duncan Reed of this city motored to Indianapolis today where they attended the wedding of Miss Naomi Baker to Thomas A. Lyda, which was performed at the Downey Avenue Christian church. Miss Baker and Mrs. Reed, who was formerly Miss Gladys Chadwick students of Butler college and were sister members of the Beta Tau Alpha fraternity of that college.

The young people of the First Presbyterian church had a most delightful pitch-in supper Tuesday evening in the church basement. Following the supper a contest, an auto catastrophe, was much enjoyed. The guests were then given envelopes with directions written in rhyme, instructing them to trade pieces with everyone present until their "ad" was completed. Then followed a race with toy automobiles, a very interesting stunt.

The Woman's Missionary Society of the First Presbyterian church met Tuesday afternoon with Mrs. M. V. Spivey in North Jackson street. Mrs. James Brooks lead the devotional exercises. Mrs. John Boyd, assisted by a group of ladies, presented the sub-

ject, "Mexicans in the United States." The Misses Wilson and Spivey gave two interesting musical numbers. At the close of the program the hostess served dainty refreshments.

At the business meeting of the Psi Iota Xi sorority held Tuesday evening at the home of Miss Rowena Kennedy, plans were made for the initiation of the sorority's pledges Friday afternoon. The initiation will be held at three o'clock at the home of Miss Helen Pierson in West Third street and a dinner will be served in their honor at six o'clock at the Elks club room. Miss Brenda Kinsinger also gave an interesting report of the Psi Iota Xi convention at Angola, Ind., a few weeks ago.

A very interesting program was rendered Tuesday afternoon at the meeting of the Pastor's Aid Society of the Main Street Christian church in the Sunday school department of the church. Miss Janet Dean rendered a violin solo, her accompanist being her mother, Mrs. D. H. Dean. Her selection was followed by a piano number given by Miss Mildred Dungan. A refreshing drink of ice cold lemonade was served to the guests following the program by Mrs. Theodore Abercrombie, president, and Mrs. Howard Carmichael, vice-president of the society. This marks the close of the meetings for the summer, the next meeting of the organization being in September.

Dresses Planned for Two Fabrics

Many of the summer dresses are planned especially to make effective a combination of materials. Plain silks are combined with printed silks, figured cottons with plain ones, and stripes with solid colors.

Mr. and Mrs. Albert Winship entertained with a charming dinner party Tuesday evening at their home in North Main street. The appointments for the dinner, which was served at 6:30 o'clock, were carried out in the pretty summer flowers. The dinner was given in honor of Mrs. A. W. Posey, of New York City, who is visiting relatives and friends in this city. The repast was served in courses and covers were laid for the honored guest, Mr. and Mrs. Ab. Denning, Mr. and Mrs. Charles A. Manzy, Mr. and Mrs. W. D. Root, Mr. and Mrs. W. A. Allen, Mr. and Mrs. B. F. Miller, Mr. and Mrs. Alvan Moor, Mrs. F. E. McClannahan and daughter Jean, Mr. and Mrs. T. M. Green, Mr. and Mrs. Vincent Young, Mr. and Mrs. L. B. Miller and Mrs. Minnie Abercrombie.

Hidden Near Laporte In 1863 Adventurous Hunt Booty

Laporte, Ind., June 27.—Blood and thunder stories of dondooos and pieces of eight on the Spanish Main have nothing on an old story which is being revived here.

According to accounts of old residents, the "swag" of a gang of bank robbers is buried in Pine Lake cemetery near here. About 1863 so the story goes—after a series of large bank robberies in the east the robbers sent one of their number to hide part of the booty away in the west.

The man started for Chicago, but got off the train at Michigan City, fearing that he was being followed. He drove to Laporte in a buggy and as he passed the Pine Lake cemetery, stopped, buried his plunder and then came on to the city.

He was arrested here and taken to Joliet, Ill., where he became sick

and died in prison. On his death bed he told the story of his flight and the burial of the treasure, but was unable to give the exact location of the spot where the money was hidden.

Numerous searches in the intervening years have failed to reveal the treasure, and still youths of Laporte dream of unearthing the money that has lain buried for half a century.

COUNCIL AWARDS PLANT CONTRACTS

Continued from Page One

night, included the following:

Brick

Hydraulic Press Brick company, Indianapolis, \$18 per thousand; Western Brick company, Indianapolis, successful bidder at \$21 per thousand for interior brick and \$16.75 for other brick. This firm also submitted estimates of \$17.75 and \$16.25 on other grades of brick.

Roofing and Sheet Metal

Awarded to Henry C. Smither Roofing and Sheet Metal company, Indianapolis, for \$302 for the metal and \$503 for roofing. The other firm, Ralph R. Reeder of Indianapolis was a close second with a combined bid of \$830.

Glass

Only one bid was submitted for glass, and the contract was awarded to the Indianapolis Paint and Color Company for \$296 (not installed).

Steel Sash

Awarded to the Truseon Steel company, Indianapolis, for \$902, for steel sash and accessories, without glass. Another bid was submitted by the James H. Carmine Company of Indianapolis for \$915, and for \$695 without the accessories.

The Clay I Use

White, Refined Super - Clay

By Edna Wallace Hopper

Some think that facial clays are new. Not so. Beauties of all ages have employed them. Most of the famous belles of history owed their beauty to complexion clays.

But until late years, few women fostered and preserved their beauty. Now millions do, and clay is a prime essential.

What I Owe to Clay

About 1900, French beauty experts taught me the use of clay. Now at a grandmother's age, I look like a girl of 19. After 32 years as a stage star, I still play young girls' parts. And millions marvel at my youthful beauty.

I have supplied my methods to scores of friends. They enhanced their beauty by them, and they kept their youth. So I am convinced that most girls and women can do likewise if they will. And I am going to help them.

A Perfected Clay

The clay I use is not the crude and muddy clay so many use today. That is out of date. Able scientists in France have been studying clays for 20 years and over. And they have perfected clay.

They have found those rare clays, mineral-laden, which bring maximum results. They have learned how to refine them—to remove the useless mud. The clay I use is white and clean and dainty.

They have found added factors which bring manifold results. So my White Youth Clay will be a revelation to a user of other clays.

Clay is Essential

No girl or woman can look her best without the use of clay. Nor can a woman keep her youthful

bloom and contour, as I have. Users of clay stand out in any crowd.

Clay purges the skin of all that clogs it—the causes of sallowness, blackheads and blemishes.

It draws the blood to the skin to nourish and renew it. The result is a rosy afterglow, then a lasting new complexion.

It firms the skin, combats the cause of wrinkles, takes out lines, reduces enlarged pores. Thus it gives and maintains a smooth, soft, baby-like complexion.

The results are amazing—almost unbelievable at first. Many women in 30 minutes seem to drop ten years. And my girlish face, at my grand old age, shows what constant use can do.

You cannot afford to miss these benefits. They mean too much to you. But use a modern scientific clay. My White Youth Clay, they tell me, is the last word in facial clays.

Edna Wallace Hopper's White Youth Clay is now supplied by all druggists and toilet goods dealers. Price, 50c and \$1 per tube. Also my Youth Cream, based on lemon and strawberry. This should follow the clay. Also my Facial Youth—my famous liquid cleanser. Also my Hair Youth, which brought my luxuriant hair. My Beauty Book comes with each.

In fairness to yourself, see what Youth Clay does. You will ever thank me for it. If the first tube fails to delight you, your dealer will return its price.

Edna Wallace Hopper, Business Address, Waukesha, Wis.

Mr. and Mrs. Bert Hobbs and daughter Marjory were the guests of Mrs. Hobbs' mother, Mrs. Brock Sunday.

Mr. and Mrs. Charles Thompson and Charley Longfellow spent the week-end with Mr. and Mrs. Omer Thompson.

The Sunday dinner guests of the Misses Ruby and Rena Bradburn were Miss Mildred Boling of New Paris, Ohio, Sam Hamon of Richmond and Lawrence Hamon and Hugh Pettit of this vicinity.

A large crowd attended the children exercises at Sexton Sunday night. The program was very good.

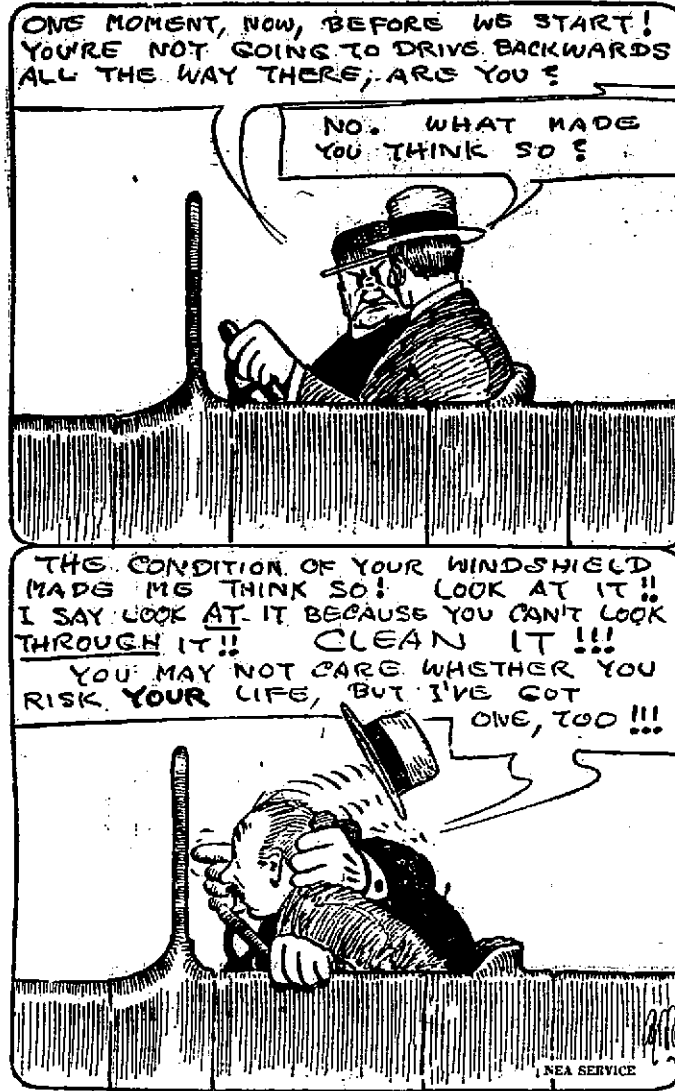

Wilma Land of Greensburg was the guest of her sister, Mrs. Fred Blessinger over the week-end.

Miss Eva Bradburn was the weekend guest of her aunt, Mrs. Oma Hobbs of Rushville.

Mr. and Mrs. Fred Newman and son John were the Sunday dinner guests of J. L. Newkirk and family.

EVERETT TRUE

By Condo

THE HOME GARDEN

FOUR ANNUAL VINES

Four of the most useful of annual vines may be sown now, the Japanese morning glories, cardinal climber, cypress vine and flowering beans. All of these vines need fairly warm weather for successful germination and nothing is gained by sowing them outdoors while the weather is still inclined to be raw and the soil cold. The seeds are likely to rot under such conditions.

The common annual morning glories, however, are not so delicate and of the four vines mentioned, the Japanese morning glories are least likely to be injured, but their germination will be delayed to warmer weather.

Cardinal climber may be planted outside as soon as the weather is reliably warm. This beautiful vine, a hybrid between the cypress vine and a close relative of the morning glory, is rather slow to germinate and it is well to soak the seed in warm water for 24 hours before planting or to file one side of the seed thin. Its handsome brilliant red flowers are always ornamental.

The cypress vine is the most delicately beautiful of all these vines and will not furnish a thick screen. For this purpose the morning glories and the scarlet runner or flowering bean should be used. The scarlet runner should be planted last of all and with the eye down.

The handsome purple hyacinth bean may also be planted now. It is a very beautiful climber, the seed pods of rich purple being as ornamental as the lavender flowers. It is not as heavy foliaged as the scarlet runner bean with its clusters of brilliant scarlet bloom, but is more floriferous and decorative. These vines may be planted up to the middle of May, the colder the season, the later they should be held out of the ground. As they make rapid growth and flourish in the warmer

CARDINAL CLIMBER

weather, they will grow rapidly enough, once started, to make up for the delay in planting if unseasonably cool.

M. T. RIMMER TO SPEAK

There will be preaching service tonight at the Church of God, corner of Ninth and Oliver streets. M. T. Rimmer of Indianapolis will talk at this time and the public is invited to attend.

FOREST SHORTAGE SERIOUS PROBLEM

Economist Says Serious Crisis At Hand As Trees Fall, Urging Government Control

ADDRESS TO REALTY BOARD

Dr. R. T. Ely Suggests National Land Commission To Supervise Policy And Management

Cleveland, O., June 27.—The sawmills of the nation are stripping 5,000,000 acres of forest land a year, and a very serious situation will result within a decade, if the pace of the lumbermen is not stopped, Dr. Richard E. Ely, University of Wisconsin land economist and director of the National Institute for Research in Land Economics and Public Utilities, said today.

Dr. Ely, speaking before the farm lands division of the National Association of Real Estate Boards, in session here, advocated the establishment of definite land policies for state and nation, to solve the problem of the increasing areas of idle lands.

"There are 245,000,000 acres of cut-over lands operating at a low rate of efficiency, of which 40,000,000 lie in the lake states alone," he said. "There are also 80,000,000 acres of burnt-over and devastated areas absolutely idle."

Before the days of commercial lumbering farms followed forests. It was the pioneer who slashed and cut the trees to make room for corn. The gigantic saw mills now have stripped the lake states and a large part of the southern states of their trees so fast that the pioneer is far behind in the converting of stump land to farm land.

"The settler's grub ax and dynamite are left far behind now."

Ely also stated that the tendency to more idle lands was increased by the tendency to increase production on present farms. From 1910 to 1920 our population increased 15 per cent, he said, and three million persons have been added since, but the acreage of farm lands increased but nine per cent.

"Thousands of acres of land once

Church Beating Sunday
Movies At Their Own Game

Laporte, Ind., June 26.—The church is competing with the moving houses and beating them at their own game.

Every Sunday night the Rev. F. W. Bostick, pastor of the first Baptist church of this city, put on an open-air moving picture performance showing films of an educational nature and from 800 to 1,000 attend while the regular houses are practically deserted.

Besides a film, the programs consist of short religious talks couched in baseball terms, and various musical numbers. The performances are staged in a public square, the screen being placed on the side of a building, and city officials have aided by closing the street to traffic during the services. Collections and donations pay the expenses.

C. E. STUCKER, Mgr.

THE OLD HOME TOWN By Stanley

wrested from the wilderness by the toil of man has gone back to brush, forest or pasture in practically all the states of the east. Not so long ago one-half of Connecticut was classed as improved farm land; today only one-fourth of the state is so classed."

Ely said that as a leading feature of a land policy certain kinds of lands, "forest land particularly" should be owned and controlled by the government to a large extent.

He advocated the creation of forest areas in large blocks, so that administration and fire protection would be economically possible.

"All this land would then be taken off the market and there would no longer exist the temptation nor the necessity for unloading it on the unsuspecting purchaser," he declared.

Ely said that he would not discourage private enterprises from practicing forestry, but that the present system of taxation unproductive timberlands would have to be radically changed before private capital could be induced to enter the field.

The economic value of producing and re-producing natural beauties for recreational purposes was stressed by the speaker.

"The lakes of the north will lose 75 per cent of their charm when the forests are gone. Recreation means an actual money income to the state. It is estimated that Michigan profits to the extent of \$75,000,000 a year from the people who use the state for recreational purposes."

Ely recommended:
1.—A national land commission, created by legislation, to determine a national land policy and to carry out such a policy.

2.—Government ownership of forests and certain other kinds of land, but not producing farm lands.

3.—A comprehensive program for land settlement, to include selection of settlers as well as land, provision for proper credit facilities and a reasonable program of land taxation.

4.—Classification of different kinds of lands as to best uses to which they may be put.

MOVING TO INDIANAPOLIS

Mr. and Mrs. W. E. Wagoner and family are moving from their home in West Second street to 2439 North Alabama street Indianapolis, for future residence. Mr. Wagoner, who was formerly county superintendent of schools here, resigned a few months ago to become assistant state high school inspector.

FOR REMOVAL OF TONSILS

Mrs. B. O. Simpson underwent an operation for the removal of her tonsils at the Dr. Frank H. Green hospital Tuesday and was removed to her home today.

Pimples

BLOOD impurities are pumped by the heart into the face. That is what causes that grainy appearance, that muddiness, sallowness, pimples, blackheads, acne, red spots, and that impossible "something" which no face cream, massage, or face powder can cover up or beautify! The foundation for a beautiful skin simply is not there, and no face treatment can give it to you. But increase your red-blood-cells, and quickly the ruby tint of purity begins to glow in the cheeks, the complexion becomes Venus-like and immaculate! Try it. It will do it every time. S.S.S. builds the red-blood-cells you need for a beautiful complexion. Begin using S.S.S. at once, and give yourself what you have been working for, for years.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.
